

**Solve each problem.****Answers**

- 1) At the school's book fair Sam bought thirty-six adventure books and forty-two mystery books. If seventy-one of the books were used, how many new books did he buy?
- 2) For Halloween Carol and her sister combined the candy they received. Carol had forty pieces of candy while her sister had thirty-four. If they ate fifty-three pieces the first night, how many pieces do they have left?
- 3) A waiter at 'The Greasy Spoon' restaurant had twenty-six customers to wait on. During the lunch rush he added another forty-nine customers. If forty-three of the customers didn't leave him a tip, how many customers did leave a tip?
- 4) Lana had thirty-six music files and forty-one video files on her flash drive. If she deleted eight of the files, how many files were still on her flash drive?
- 5) George had twenty-six dollars. For his birthday he got twenty-nine more dollars but spent two on a new game. How much money does he have now?
- 6) A pet store had thirteen siamese cats and twenty-six house cats. During a sale they sold four cats. How many cats do they have left?
- 7) While on vacation, Katie took eleven pictures at the zoo and seventeen at the museum. If she later deleted twenty-six of the pictures, how many pictures from her vacation did she still have?
- 8) Nancy bought two coloring books. One had two pictures and the other had twenty-six. After one week she had already colored ten of the pictures. How many pictures does she still have to color?
- 9) While shopping, Sarah bought forty-seven green towels and thirty-four white towels. If she gave her mother seventy-eight of them, how many towels did Sarah end up with?
- 10) Roger had to wash forty-nine short sleeve shirts and fifty long sleeve shirts before school. If he had only washed sixty-five of them by the time school started, how many did he not wash?
