

Rewriting Equations

Name: _____

Rewrite each number sentence using numerals and symbols.

- 1) N times five equals fifty
- 2) B divided by ten equals ten
- 3) one hundred divided by U equals ten
- 4) T plus four equals nine
- 5) The sum of H and eight is nine
- 6) W plus three equals thirteen
- 7) six times F equals fifty-four
- 8) P minus four equals ten
- 9) The difference between eighteen and A is nine
- 10) R plus eight equals eleven
- 11) five times J equals twenty-five
- 12) eleven minus D equals four
- 13) The difference between seven and C is five
- 14) one hundred divided by G equals ten
- 15) nine times Z equals twenty-seven
- 16) one hundred divided by Y equals ten
- 17) The difference between twelve and A is nine
- 18) The product of E and eight is twenty-four
- 19) one hundred divided by B equals ten
- 20) The sum of four and M is eleven

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____

Rewriting Equations

Name: **Answer Key**

Rewrite each number sentence using numerals and symbols.

- 1) N times five equals fifty
- 2) B divided by ten equals ten
- 3) one hundred divided by U equals ten
- 4) T plus four equals nine
- 5) The sum of H and eight is nine
- 6) W plus three equals thirteen
- 7) six times F equals fifty-four
- 8) P minus four equals ten
- 9) The difference between eighteen and A is nine
- 10) R plus eight equals eleven
- 11) five times J equals twenty-five
- 12) eleven minus D equals four
- 13) The difference between seven and C is five
- 14) one hundred divided by G equals ten
- 15) nine times Z equals twenty-seven
- 16) one hundred divided by Y equals ten
- 17) The difference between twelve and A is nine
- 18) The product of E and eight is twenty-four
- 19) one hundred divided by B equals ten
- 20) The sum of four and M is eleven

Answers

1. $N \times 5 = 50$
2. $B \div 10 = 10$
3. $100 \div U = 10$
4. $T + 4 = 9$
5. $H + 8 = 9$
6. $W + 3 = 13$
7. $6 \times F = 54$
8. $P - 4 = 10$
9. $18 - A = 9$
10. $R + 8 = 11$
11. $5 \times J = 25$
12. $11 - D = 4$
13. $7 - C = 5$
14. $100 \div G = 10$
15. $9 \times Z = 27$
16. $100 \div Y = 10$
17. $12 - A = 9$
18. $E \times 8 = 24$
19. $100 \div B = 10$
20. $4 + M = 11$
